President Kazuo Kuroda

Itabashi City Information Processing Center 5F  
2-65-6 Itabashi, Tokyo 173-0004, Japan  
E-mail: info@myOSJ.or.jp

The Optical Society of Japan was established on September 2, 2014 and come into action from January, 2015. Established many activities, such as publishing “KOGAKU” the Japanese journal of optics and “Optical Review” the international journal of optics, holding an annual meeting “Optics & Photonics Japan”, “Optical Symposium” and “Winter Seminar”, supporting activities of associated research groups, awarding programs for encouraging member's research, are taken over from the former society (the division of The Japan Society of Applied Physics). More over, many new activities such as promotion and collaboration of international conferences, cooperation with associated domestic and overseas societies, various supporting services, publishing textbooks, and holding educational enlightenments. We aim and act to return these outcomes to an industrial field and try to positively contribute to the world.

We would be grateful if your company could approve our activity and join as a supporting member to The Optical Society of Japan.
